

Dear Prospective Sponsor,

We invite you to partner with the first Global Earth Repair Summit on October 21-24, 2022. This event will bring together an estimated thousand people from around the world for four days of education, networking, and collective action. The summit will host eco-restoration practitioners and enthusiasts including indigenous people, activists, policy makers, and scientists. Together we will draft a Global Repair Action Plan to present to the world.

Programming will be presented in multiple regional time zones. This event features many small-group sessions. Everyone has a voice. The Summit will foster a synergistic exchange of earth repair strategies and generate physical outcomes to rehydrate, and re-carbonize the planet. There will be alliances and initiatives that will serve society at large and the Earth.

A sponsorship is a great way to support this event and the earth repair movement. Sponsorship funds expands our ability to bring in impactful presenters, do more documentation and reach individuals and communities around the world via Zoom, live streaming, and in-person work events. In exchange for your financial or in-kind contribution, you will receive benefits that include promotion and acknowledgement. Please review the "Sponsor Levels and Benefits" information page below.

IN-KIND SPONSORS: We can accept in-kind donations in lieu of cash for needed services or items. Please reach us to inquire.

The Global Earth Repair Summit is a team effort coordinated by Michael Pilarski, Director of Friends of the Trees Society since 1978, and the Global Earth Repair Foundation since 2019. Michael has organized many large events, including: the 2005 Inland Northwest Restoration Conference at Washington State University, Pullman; and the 2019 Global Earth Repair Conference at Fort Worden, Port Townsend, Washington State. Your support of the Global Earth Repair Summit will greatly assist our ability to powerfully and effectively influence the world.

Please reach out to me with any questions.

Thank you for your consideration and support!

Michael Pilarski, Event Coordinator
